

Care Program

No one should have to go without heat or air when times are tough. The Chillax Care Program is our way of helping local families stay safe and comfortable, with a little help from the community.

Neighbors Helping Neighbors Stay Safe and Comfortable

The Chillax Care Program is a community-supported, pay-it-forward program created to help local families who cannot afford critical HVAC repairs.

How the Program Works

Community Donations

Individuals and businesses can contribute any amount. Donations are *not tax-deductible*, but every dollar goes directly toward parts and materials used for qualifying repairs.

Chillax Donates the Labor

The Chillax Team will provide all labor for approved projects at no charge. Program recipients only pay a small diagnostic fee/trip charge to help cover gas, insurance, and basic operating costs.

Fund Covers Parts & Materials

Approved applicants receive the parts and equipment needed to restore safe heating or cooling in their home.

For Donors: How You Can Help

Your support directly helps a neighbor stay safe and comfortable.

You can:

- Add a donation to your next service invoice
- Donate via the Chillax website
- Share this program with others who may want to help

For Applicants: How to Request Assistance

If you're facing financial hardship and need help with an essential HVAC repair, you may qualify for assistance.

Fill out our short online application. Requests are reviewed based on need, safety, and available funds.

Be prepared to show us **one** of the following items during your visit:

- Proof of income-based assistance (SNAP, WIC, SSI, etc.)
- A recent utility shutoff notice or overdue bill
- A brief statement describing your current situation
